

Journal of Data Processing

Volume 15 Number 2 June 2025

Editorial	i
Research	
Enhancing Constraint Solver Efficiency with Self-Learning Genetic Algorithms- Hu Xu and Karen Petrie	51
A Compositional and Algebraic Framework for Resource Usage Characterization of Software and Hardware- Davide Morelli and Antonio Cisternino	59
A Swarm-Based Heuristic for Efficient Sparse Signal Reconstruction in Compressive Sampling- Theofanis Apostolopoulos	67
Notification	
Research Writing Blog	75
Book Review	77
Sixth International Conference on Science & Technology Metrics (STMet 2025)	80
Fifth International Conference on Digital Data Processing (DDP 2025)	82
Third International Conference on Modelling and Forecasting Global Economic Issues (MFGEI 2025)	84
Seventh International Conference on Real-time Intelligent Systems (RTIS)	87
