- Seventh International Conference on Digital Information Management (ICDIM 2012)
- The Second International Conference on Innovative Computing Technology (INTECH 2012)

Editorial

We are happy to place the first issue of the ***Journal of Data Processing (JDP)***. The data processing has been undergoing rapid advances in the wake of global significance to processing of larger quantities of heterogeneous data. The next generation data storage will transform completely all the activities of data organization. Hence by realizing this potential we bring this specific primary publication, the JDP. We hope that the journal will mark its value and eminence not in terms of number of papers, but in recording and publishing the update research in the domain.

In this issue we publish five papers and ensure that we will produce high quality papers in the forthcoming issues.
