

## Editorial

We bring the third issue of the ninth volume of the **Journal of Data Processing** with three pieces of publications.

In the first paper on “**A Study on Utilization of Electronic Resources by the Faculty Members of Agriculture Colleges**” the authors *Sankaranarayanan, and Elayaraja*, assessed and evaluate the awareness and ability to use e- recourse by faculty members in agriculture colleges in Tamil Nadu. For this work author prepared a well structured questionnaire as a tool for data collection and same analyzed and presented with useful percentage analysis and suitable table for presentation of data.

In the second paper on “**Utilization of Electronic Resources in a Selected Institution in Tamil Nadu - A Study**” the authors *Saravanakumar and Mani*, studied the awareness and utilization of electronic resources and related issues among the students in a selected institution. The study also highlighted different types of electronic resources used by students, the purpose and frequency of using electronic resources and the problems faced by the students while accessing and using electronics resources.

In the last paper on “**Scientometric Analysis of Articles Published in “IEEE/ACM Transactions on Networking during 2010-2014”**”, the authors *Swarnamugi and Santhi* presented a scientometric study of Journal of IEEE/ACM Transactions on Networking. Authors studied the growth of contributions by year and volume, single and multi-authored papers by year and degree of collaboration.

We will come up with more research in the next issue.
