

# The 5th International Conference on Real-time Intelligent Systems (RTIS 2023)

October 09-11, 2023, University of Bedfordshire, UK

[www.socio.org.uk/rtis](http://www.socio.org.uk/rtis)

## CALLFOR PAPERS

Lecture Notes in Networks and Systems by Springer <https://www.springer.com/series/15179>

Earlier conferences took place in Taipei, Taiwan (2018); Casablanca, Morocco (2017); Beijing, China (2016). The 5th RTIS will take place at the University of Bedfordshire, UK.

Over the last few years, real-time intelligent computing has radically transformed the human lifestyle. Research on real-time intelligent systems is multi-disciplinary, exploiting concepts from diverse areas such as big data processing, computational intelligence, location-based services, recommendation systems, and multimedia processing. In today's highly dynamic environment, analysing data in real-time is a must to understand how systems process data, reason the outputs, and anticipate trends in intelligent computing. To this end, this conference will serve as a platform to manifest the ongoing research in the field. Thus, RTIS welcomes theoretically grounded, methodologically sound papers that address aspects related to topics, such as:

Artificial Intelligence Techniques

Artificial Intelligence and Data mining

Streaming data, streaming engines

Trace-based intelligent real-time services

Adaptive vision algorithms

Location-based services

Intelligent Robotic Systems

Collaborative Intelligence

Processing Intelligent Databases

Data capture in real-time

Data quality and cleansing

Intelligent Data Analysis

Intelligent Database Systems

Big Data systems and applications for high-velocity data

Intelligent Information Systems

Privacy and Security in Intelligence

Software Engineering Solutions

Intelligent Soft Computing

Real-time multiprocessor systems

Internet of Things

Architectures for Intelligence

Real-time distributed coding

Smart services and platforms

Real-time modelling user information needs  
Wireless Communication  
Real-time intelligent communication  
Real-time intelligent network solutions  
Mobile Smart Systems  
Broadband Intelligence  
Cloud Computing and Intelligence  
Collaborative Intelligence  
Analysis in domains such as energy, sensors, Expert Systems  
Smart Life Systems  
Decision support systems in real time  
Multi-agent Intelligent Systems  
Multilingual information access  
Recommendation systems  
Real-time intelligent, alert systems  
Real-time remote access systems  
Intelligent Transportation Systems  
Critical Real-Time Applications  
Hybrid Intelligent Systems  
Real-time noise removal systems  
Event-driven analytics  
Intelligent Fuzzy Systems  
Machine translation in real time  
OLAP for real-time decision support  
Crowdsourcing and crowd intelligence  
Submission, proceedings

Papers must be submitted online through *OpenConf* (<https://www.socio.org.uk/rtis/paper-submission/>). Author instructions and LaTeX2e (preferred) and Word macro files are available on the submission page. Submitted papers should be within 14 pages (long papers) and eight pages (short ones), including figures, tables, and references. Authors of accepted papers are required to transfer their copyrights. For a paper to appear in the proceedings, at least one of the authors MUST register for the conference by the camera-ready submission deadline with full registration.

The proceedings will be published in Lecture Notes in Networks and Systems by Springer.

Extended versions of the conference papers will be considered for publication in the below journals.

Journal of Computational Methods in Sciences and Engineering (JCMSE)

Future Internet  
<https://www.mdpi.com/journal/futureinternet>

Data  
<https://www.mdpi.com/journal/data>

(For Data and Future Internet, the discounted APC is applicable, which is 50%)  
Journal of Digital Information Management  
Journal of Intelligent Computing

### **Venue**

The venue is the University of Bedfordshire, UK.

### **Important Dates**

Full Paper Submission: July 20, 2023  
Notification of Acceptance/Rejection: August 15, 2023  
Registration Due: September 15, 2023  
Camera Ready Due: September 15, 2023  
Workshops/Tutorials/Demos: October 08, 2023  
Main conference: October 09-11, 2023  
Post-conference proceedings: October 25, 2023

### **General Chairs**

Ricardo Rodriguez-Jorge, Jan Evangelista Purkyně University, Czech Republic  
Martín LÓPEZ-NORES, University of Vigo, Spain

### **Program Chairs**

Yao-Liang Chung, National Taiwan Ocean University, Taiwan  
Pit Pichappan, Digital Information Research Labs, India

### **Workshop/Special Issues Chair**

Ezendu Ariwa, University of Warwick, UK
