## 2019 Prices for Third World Countries

**DLINE- The Information Gateway to Science and Technology Innovation**

**Published by the DLINE INC, USA, UK, Hong Kong and India**
**Internationally Reviewed and Indexed Journals**

DLINE Journals serve as the gateway to the Scientific and technical knowledge. DLINE journals undergo rigorous peer-review process and ensure originality in content and contribution. DLINE publishes eminent and reviewed journals in Science, Engineering, Technology and Management.

## Features of DLINE journals

❖ **DLINE offers access to PDF Full-Text Articles from Current Content and All Online Back Files Published Since 2003.**

❖ **DLINE offers access to Online Early Articles, i.e., Peer-Reviewed Articles published online before the Print Issue is completed.**

❖ **Archival Access to Paid-For Content, Where DLINE has the Rights to Deliver IP and/or Remote User Access/Password Authentication.**

❖ **DLINE offers the Usage Statistics.**

❖ **DLINE searching mechanism is more functional where it offers full text papers which are searchable for Author, Title, Keywords, Journal Name and Year/Period.**

❖ **In 2018 DLINE Publishes 21 Reviewed Journals in Print as well as Online.**

## DLINE Journals (GROUP A)

### Journal of Digital Information Management (JDIM)
http://www.dirf.org/jdim
ISSN: 0972 7272
2019 Publication Frequency
Volume 17 (6 issues)
Format- Print, Online & DVD
Online Back files 2003-2018

**Editors: Daisy Jacobs, University of Zululand, South Africa, Stephanne Bressanne, National University of Singapore, and Adrian FLOREA, Lucian Blaga' University of Sibiu, Romania**

*The Journal of Digital Information Management* (JDIM), a bimonthly Journal of Digital Information Science and Technology, has been published since March 2003. Sponsored by the Digital Information Research

Foundation, it concentrates on all aspects of Digital Information Management, and covers digital information processing, Digital content management, Digital world structuring, Digital libraries, Metadata, Information management and other related fields. An international peer-reviewed Journal, JDIM contains original research papers, ongoing research, technology reviews, reports on work-in-progress, short notes and announcements of forthcoming events. It acts as a portal to the digital information world.

## International Journal of Web Applications (IJWA)

Editor: Simon Berkovich, George Washington University, USA

The aim of this international journal is to provide a forum for original and significant contributions in the field of World Wide Web and its recent technologies. This journal is a forum for scientists, engineers, and practitioners to present their latest research results, ideas, developments and applications in Information retrieval on the web, Information Sciences, Artificial Intelligence, Mobile Computing, Networking, Web Content Mining, Health Informatics, Bio informatics and IT Applications across disciplines.

## Journal of E-Technology (JET)

Editor-in-chief: Adrian Florea, 'Lucian Blaga' University of Sibiu, Romania

*Journal of E-Technology* is a scholarly journal in E-technology and its applications. It publishes original and scholarly papers after rigorous peer reviewing. The JET publishes research papers, reports, reviews and book reviews.

## Journal of Networking Technology (JNT)

Editor-in-chief: Ramiro Smano Robles, Instituto Superior de Engenharia do Porto Rua, Portugal

In the modern high performance computing systems, innovative as well as hi-tech research is required to address the challenges in the networking. The Journal of Networking Technology will act as a platform to publish and disseminate the cross cutting research in networking systems.

The aim of this international journal is to provide a platform for original and significant contributions in the field of Intelligent Computing in its wide scope. Intelligent Computing is taken here to include theory, algorithms, applications and technologies. This journal is a forum for scientists, engineers, and practitioners to present their latest research results, ideas, developments and applications in Information retrieval on the web, Information Sciences, Artificial Intelligence, Mobile Computing, Networking, Web Content Mining, Health Informatics, Bioinformatics and IT Applications across disciplines.

*The Journal of Multimedia Processing and Technologies*(JMPT) aims to provide a multidisciplinary forum to present and discuss theory and research, development, architectures, networking, system support tools and applications as well as case studies of multimedia and hypermedia. It also features experimental and survey articles. It seeks to fill the gap that exists between several fields and communities such as image processing, video processing, audio analysis, information retrieval and understanding, data management and mining, security, and education. The journal is intended for academic researchers, practitioners, industry professionals, consultants, managers, students, educators, policy makers and engineers working in the field and/or are involved in multimedia system research, design and applications.

*Journal of Information Technology Review* is a scholarly journal in the Information Technology and its applications. It publishes original and scholarly papers after rigorous peer reviewing. The R & D have been transforming the Computing paradigms and technology in multidimensional directions. Research in the Information Technology is distributed, heterogeneous, and multidisciplinary. The Journal of

Information Technology Review characterizes the innovative IT, by addressing the significant areas and themes in Information Technology.

## Journal of Information Security Research (JISR)

Editor-in-chief: Nhien-An LE-KHAC, Forensic Computing and Cybercrime Investigation Program Director, University College Dublin, Ireland

Papers offering original and innovative research contributions in information systems security and related domains are published. The primary focus is on original, high quality, and unpublished research- and implementation-related contributions.

## International Journal of Computational Linguistics Research (IJCLR)

Editor-in-chief: Aladdin Ayesh, DeMontford University, UK

*International Journal of Computational Linguistics Research* is a scholarly journal in Computational linguistics and text mining including natural language processing.

## International Journal of Information Studies (IJIS)

Editor-in-chief: Sulaiman Alreyaee, AISB University, Riyadh

*The International Journal of Information Studies* (IJIS) seeks the advancement of the knowledge in the expanding field of information studies. Our mission is to attract the highest quality theoretical and applied research in the field of information studies, including information science, management, retrieval, analysis, systems, theory, applications, and policy, as well as in the field of human-computer interaction.

## Journal of Information & Systems Management (JISM)

*The Journal of Information & System Management* (JISM) aims to provide a multi-disciplinary forum to present and discuss theory and research, development, architectures, networking, system support tools and applications as well as case studies of information and system management, information and data management, information and system implementation and related issues.

## Journal of Data Processing (JDP)

This journal aims to inspire a change in the way researchers might think about different data processing problems in general, by looking for patterns, symmetries, and equivalences, and exploiting these so that answers to the questions raised.

## Journal of Information Organization (JIO)

Organizing information is a bottom-line issue in establishing frameworks for thought used in research and teaching across scholarly disciplines. The applications require well-thought-out conceptual structures which must be developed by beginning from scratch or by refining existing knowledge organization and information processing systems. There is a good scope for working on the issues such as interoperability, interface, ontologies, taxonomies, solving complexities and so on.

## Journal of Electronic Systems (JES)

The electronic systems are expected to have a significant impact on the lives of people in the coming years. The Electronic technologies require specific power electronics capabilities to convert the power generated into useful power that can be directly interconnected with the utility grid and/or can be used for consumer applications. The mission of the Journal of Electronic Systems is to publish high scholarly research in electronic systems from them acroscope through the microscopic levels.

## (GROUP B)

### Electronic Devices (ED)
http://www.dline.info/ed
Print ISSN: 2278 – 6422
Online ISSN: 2278 – 6430
2019 Publication Frequency
Volume 08 (2 issues)
Format- Print, Online & DVD
Online Back files - From 2012

Electronic Devices (ED) publish papers in Electronic and Electrical Engineering.
Subscription Price: Rs.3000 (for Print and Online)

### Signals and Telecommunication Journal (STJ)
http://www.dline.info/stj
Print ISSN: 2278 – 6449
Online ISSN: 2278 – 6457
2019 Publication Frequency
Volume 08(2 issues)
Format- Print, Online & DVD
Online Back files - From 2012

Signals and Telecommunication Journal publish papers in Electronics and Communication Engineering.
Subscription Price: Rs.3000 (for Print and Online)

### Progress in Computing Applications (PCA)
http://www.dline.info/pca
Print ISSN: 2278 – 6465
Online ISSN: 2278 – 6473
2019 Publication Frequency
Volume 08 (2 issues)
Format- Print, Online & DVD
Online Back files - From 2012

Progress in Computing Applications publishes papers in Electronic and Electrical and Computer Engineering. Subscription Price: Rs.3000 (for Print and Online)

### Progress in Machines and Systems (PMS)
http://www.dline.info/pms
Print ISSN: 2319-4596
Online ISSN: 2319-460X
2019 Publication Frequency
Volume 08 (2 issues)
Format- Print, Online & DVD
Online Back files - From 2012

Progress in Machines and Systems publishes papers in Mechanical and Systems Engineering.
Subscription Price: Rs.3000 (for Print and Online)

## Progress in Signals and Telecommunication Engineering (PSTE)

http://www.dline.info/pste
Print ISSN: 2319-457X
Online ISSN: 2319-4588
2019 Publication Frequency
