The 2010 International Conference on Business and Digital Enterprises (ICBDE2010)

July 19-21, 2010

Gopalan College of Engineering & Management, Bangalore, India

Introduction

The world is becoming more and more 'digital'. The digital technology has transformed the entire world to a new reality. Almost all sectors like journalism, banking, finance, manufacturing, health care, education, entertainment etc are influenced by digital revolution. It is essential to examine a variety of business, technical, legal and all other related issues and seek to identify the opportunities and challenges in the movement toward being digital. We also look and understand how a number of enterprises spawned by digital technology to learn about how they function. The digital revolution. The research on digital enterprises and technology will lead us in the next generation and to have a perception on how and where digital technology is heading. The proposed conference will foresee such future.

This conference (ICBDE 2010) will include presentations of contributed papers and state-of-the-art lectures by invited keynote speakers. This conference welcomes papers address on, but not limited to, the following research topics:
