

**The 5th International Conference on Real-time Intelligent Systems  
(RTIS 2023)  
October 09-11, 2023, University of Bedfordshire, UK  
[www.socio.org.uk/rtis](http://www.socio.org.uk/rtis)**

**CALLFOR PAPERS**

Lecture Notes in Networks and Systems by Springer <https://www.springer.com/series/15179>

Earlier conferences took place in Taipei, Taiwan (2018); Casablanca, Morocco (2017); Beijing, China (2016). The 5th RTIS will take place at the University of Bedfordshire, UK.

Over the last few years, real-time intelligent computing has radically transformed the human lifestyle. Research on real-time intelligent systems is multi-disciplinary, exploiting concepts from diverse areas such as big data processing, computational intelligence, location-based services, recommendation systems, and multimedia processing. In today's highly dynamic environment, analysing data in real-time is a must to understand how systems process data, reason the outputs, and anticipate trends in intelligent computing. To this end, this conference will serve as a platform to manifest the ongoing research in the field. Thus, RTIS welcomes theoretically grounded, methodologically sound papers that address aspects related to topics, such as:

**Artificial Intelligence Techniques**

Artificial Intelligence and Data mining  
Streaming data, streaming engines  
Trace-based intelligent real-time services  
Adaptive vision algorithms  
Location-based services  
Intelligent Robotic Systems  
Collaborative Intelligence  
Processing Intelligent Databases  
Data capture in real-time  
Data quality and cleansing  
Intelligent Data Analysis  
Intelligent Database Systems  
Big Data systems and applications for high-velocity data  
Intelligent Information Systems  
Privacy and Security in Intelligence  
Software Engineering Solutions  
Intelligent Soft Computing  
Real-time multiprocessor systems  
Internet of Things  
Architectures for Intelligence  
Real-time distributed coding  
Smart services and platforms

Real-time modelling user information needs  
Wireless Communication  
Real-time intelligent communication  
Real-time intelligent network solutions  
Mobile Smart Systems  
Broadband Intelligence  
Cloud Computing and Intelligence  
Collaborative Intelligence  
Analysis in domains such as energy, sensors, Expert Systems  
Smart Life Systems  
Decision support systems in real time  
Multi-agent Intelligent Systems  
Multilingual information access  
Recommendation systems  
Real-time intelligent, alert systems  
Real-time remote access systems  
Intelligent Transportation Systems  
Critical Real-Time Applications  
Hybrid Intelligent Systems  
Real-time noise removal systems  
Event-driven analytics  
Intelligent Fuzzy Systems  
Machine translation in real time  
OLAP for real-time decision support  
Crowdsourcing and crowd intelligence

### **Submission, Proceedings**

Papers must be submitted online through *OpenConf* (<https://www.socio.org.uk/rtis/paper-submission/>). Author instructions and LaTeX2e (preferred) and Word macro files are available on the submission page. Submitted papers should be within 14 pages (long papers) and eight pages (short ones), including figures, tables, and references. Authors of accepted papers are required to transfer their copyrights. For a paper to appear in the proceedings, at least one of the authors **MUST** register for the conference by the camera-ready submission deadline with full registration.

The proceedings will be published in Lecture Notes in Networks and Systems by Springer.

Extended versions of the conference papers will be considered for publication in the below journals.

Journal of Computational Methods in Sciences and Engineering (JCMSE)

**Future Internet** <https://www.mdpi.com/journal/futureinternet>

**Data** <https://www.mdpi.com/journal/data>

(For Data and Future Internet, the discounted APC is applicable, which is 50%)

Journal of Digital Information Management

Journal of Intelligent Computing

**Venue**

The venue is the University of Bedfordshire, UK.

**Important Dates**

Full Paper Submission:	July 20, 2023
Notification of Acceptance/Rejection:	August 15, 2023
Registration Due:	September 15, 2023
Camera Ready Due:	September 15, 2023
Workshops/Tutorials/Demos:	October 08, 2023
Main conference:	October 09-11, 2023
Post-conference proceedings:	October 25, 2023

**General Chairs**

Ricardo Rodriguez-Jorge, Jan Evangelista Purkyni University , Czech Republic  
Martín LÓPEZ-NORES, University of Vigo, Spain

**Program Chairs**

Yao-Liang Chung, National Taiwan Ocean University, Taiwan  
Pit Pichappan, Digital Information Research Labs, India

**Workshop/Special Issues Chair**

Ezendu Ariwa, University of Warwick, UK
